Every day we work hard to make small businesses more successful. Sounds ambitious? It is. That's why we need your help.

Our philosophy is that every company should be able to afford high-quality and efficient software solutions. That's why bexio is now the leading provider of web-based business software for small businesses.

We are continuing to expand and have over 80,000 customers, over 7,000 fiduciary partners and more than 150 employees. In order to continue to grow, we need active support!

Senior AI Engineer 80-100% (f/m/d)

What awaits you:

- You will work in a motivated and solution-oriented team with a high degree of personal responsibility and autonomy.
- You will drive innovation with new AI-enabled features in our products.
- You will lead the design, development, and deployment of scalable AI/ML models and pipelines.
- You work extensively with large language models (LLMs) to develop solutions for NLP, conversational AI, and generative AI use cases.
- You collaborate with cross-functional teams to design AI-driven features and applications.
- You drive innovation by exploring the latest AI technologies and proposing new approaches for our business challenges.
- You provide technical leadership and mentorship to other team members sharing best practices in AI/ML development.

What we expect from you:

- Your place of residence is Switzerland.
- You have a university degree (or equivalent) in computer science or related field.
- Your background includes proven experience as an AI/ ML engineer or in a similar role with a track record of building and deploying real-world applications, particularly LLM-based solutions.
- You have hands-on experience with cloud environments (GCP), AI platforms (Vertex AI) and SQL databases (Postgres, BigQuery).
- Advanced Python programming skills are crucial, along with deep knowledge of relevant AI/ML libraries and frameworks.
- You have excellent problem-solving skills with a focus on practical, scalable solutions.
- We value individuals who are structured, enthusiastic, independent, and quality-focused, and who enjoy working with cross-functional teams.
- You have strong analytical and conceptual abilities and your solid communication skills help you interact with our stakeholders.
- You are fluent in English, German-Skills are a big plus.

What you can expect from us:

- Fair wage: You do a good job, we compensate you appropriately.
- You are important - The heart of our company is our employees. That's why we treat each other with respect and in an uncomplicated manner. We also give you the freedom to develop personally in a positive working environment.
- Team first: A good team does even better work. That's why we regularly organize employee events to strengthen the team spirit.
- Healthy employees: We feel good when you feel good. That's why we promote a good work-life balance with sports and relaxation activities.
- More than necessary: bexio pays the larger share of your pension fund premiums for you. In addition, we offer an individual program that suits you and your life.
- You can benefit from favorable mobile subscription conditions.

What else you should know about us:

We are a young dynamic company that works together as a team to make a great product even better. You've come to the right place if you want to work with us on this ideology in a lively startup atmosphere and love the web and its possibilities. There is room for personal and professional development in a positive working environment and to give your ideas the necessary freedom.

Sounds good? Then apply directly online with the following link. For the sake of the environment, please refrain from sending paper applications - digitalized form is sufficient.

We are looking forward to meeting you!
